

Avoid Overdose

Fentanyl may be in your drugs. You can't smell or taste it. It can make you overdose or die.

Don't use alone.

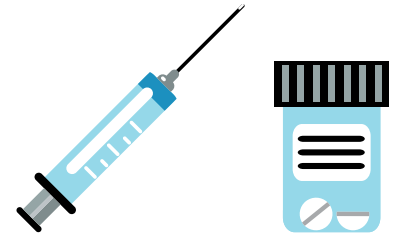

Test your drug with a fentanyl test strip.

You can get fentanyl test strips at the Needle Exchange.

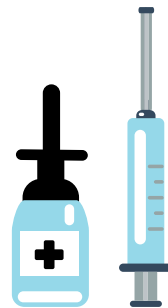

Start with a small amount.

Watch and wait before the next person uses.

Have naloxone ready.

You can get naloxone at the Needle Exchange.

Stopping an overdose may require multiple doses.

**Opioid overdose is a medical emergency.
Call 911 right away.**

Don't panic.

Roll the person overdosing onto their side. Stay with them until help comes.

The Good Samaritan Law protects you and the person overdosing.
