Are you pregnant or parenting struggling with opioid use disorder?

We can help....

If you are ready to get your life back, we can help. Start your path to recovery with our medication-assisted treatment program. It provides hope and support—so you can recover.

Patient-centered services include:
- Medication assisted treatment.
- Substance use disorder treatment with mental health support in an outpatient setting.
- Group and individual counseling.
- Ongoing care and follow-up.
- Education.
- Resources and referrals.

With specialized groups and counselors specific to pregnant and parenting individuals:
- Pregnancy Group.
- Promoting First Relationships Group and now offering individual sessions.
- Post-Partum Relapse Prevention Group for moms with children 0-8 months.
- New Moms Relapse Prevention Group for moms with children 9-24 months.
- Parent Café for coed parenting support.
