When do I wear a face covering?

Face coverings are no longer required in most places.

We still recommend wearing a face covering:

• In indoor and crowded outdoor public spaces.
• If you feel sick.

Face coverings are a great tool to prevent the spread of COVID-19.

Follow posted masking guidance.

Always wear a face covering in places like homeless shelters, healthcare settings and correctional facilities.

Schools and other places may still choose to require face coverings. Follow their mask policy.

Keep up your healthy habits!

Even if you are fully vaccinated you should continue to:

Wash your hands often with soap and warm water.

Cover your coughs and sneezes with a tissue or your elbow.

Get tested if you are exposed to someone with COVID-19. 3–5 days after exposure.
