Face Covering Guidance

Wear your face covering safely.

Face coverings should have 2 layers of fabric and fit snugly to your face.

- Wash hands before and after you touch your face covering.
- Only touch ties or loops to put on and take off face covering.
- Practice physical distancing.
- Wash face covering daily.

Face coverings only work when worn correctly.

- Don’t expose your nose.
- Don’t expose your chin.
- Don’t wear your face covering loosely. Avoid gaps.
- Don’t just cover the tip of your nose.
- Don’t rest face covering under your chin.
