Free Vaccine Locations for Children

Vaccines are free for children 0–18 years old in Washington.

- It's best to get vaccines at your child's healthcare provider because they also do important health checks.
- You can get free vaccines at clinics and pharmacies that participate in the Childhood Vaccine Program.
- Bring your child's vaccine records to their appointment. Get vaccine records at myirmobile.com.
- For local pop-up vaccine event locations, visit tpchd.org/kidsvax.
